

PPE-3: Characteristics of a Place or a Region

Introduction: Certain characteristics combine to make every place or region on earth unique. This diagram will help you identify these characteristics.

- **Directions:** Write the name of the place or region in the box provided. Then, complete each box on the right to identify its characteristics.

PLACE OR REGION:

Physical characteristics (landforms, etc.)

Climate characteristics (type and description of climate)

Cultural characteristics (language, religion, etc.)

Economic characteristics (major economic activities)

Political characteristics (form of government)

Other characteristics

Taking Another Step: On a separate sheet of paper, create a similar diagram for another place or region. Then, write a short essay in which you compare and contrast the two places or regions.
